*War Situation Largely Dominates the Stock Market-Local Business Betrays New Life.

At New York yesterday money on call was easy at 14@11/2 per cent.; last loan, 11/2; closed offered at 11/4@11/2 per cent. Prime mercantile paper, 31/2@4 per cent. Sterling exchange easier, with actual business in bankers' bills at \$4.88@4.8814 for demand, and at \$4.86\\@4.86\\ for sixty days; posted rates, \$4.87@4.87% and \$4.881/2@4.89;

commercial bills, \$4.85%@4.86. Silver certificates, 61%@62%2; bar silver, 61 15-16c, Mexican dollars, 48%,c. At London bar silver closed at 28%d per ounce.

Total sales of stocks were 175,610 shares, including the following: American Tobacco, 3,500; American Sugar, 26,500; Burlington, 14,500; Chicago Gas, 14,100; Delaware & Hudson, 4,200; Louisville & Nashville, 10,600; New York Central, 6,200; Reading, 13,600; St. Paul, 17,000; Western Union, 4,400; New Jersey Central, 14,100; silver certificates, \$15,000.

The European war situation continues to largely dominate the course of the market for stocks on this side, as was shown by the quick adjustment to the London parity in the quotations at the opening of yesterday's New York Stock Exchange. The day was without special developments otherwise outside of special movements in individual stocks. London showed a further fractional advance for American securities, 2; red cherries, 90c@\$1; strawberries, 90@95c; salmon, 1-lb, \$1.10@2; 3-lb tomatoes, 80@85c. and this was probably due in part to the fact that Tuesday's London prices were somewhat depressed by the excessive depression existing in New York on Monday. Prices for Americans continued to im-prove in London during the day, and there was some buying for London account here. The result has been that prices here have recovered the loss sustained on Monday, and are very generally above Saturday's close to the extent of a varying fraction. Trading was dull, however, outside some special cases, dealers having apparently been convinced by their experience of Monday, when they acted without any foreign exchanges to take their cue from and largely oversold the market on the war news, that they did not understand much about the Eastern question and that they would prefer to await a clearer comprehension before buying or selling further. The impressiveness of Monday's experience was demonstrated by the small dealings yesterday, by the narrowness of the fluctuations and by the close adherence to the London parity ir, the price of the inter-national shares. The total sales for the day were less than 200,000 shares. A notable point in the day's market for stocks was that It moved in harmony with the wheat market, though within a narrower range. This was contrary to the tendency hitherto shown ever since the beginning of the present war scare, and was perhaps due in part to the influence of domestic crop con- 45c; lard oils, winter strained, in bris, 50c per ditions on the wheat market. The day's gal; in half bris, 3c per gal extra. gains in the railway list generally were confined to fractions. In the coalers some larger gains were noticed, due in some measure to manipulation to pinch the shares, but influenced also by reports of plans for more economical marketing of the coal output. The extreme gains were: New Jersey Central. 3%; Delaware & Hudson, 6½c; Hill. 6c; Hope, 6c; Linwood, 6½c; Lonsdale, 6½c; Peabody, 5c; Pride of the West, 10½c; Ten and gains of a point or over in other Strike, 51/2c; Pepperell. 9-4, 15c; Pepperell. 10-4, coal stocks. In the grangers Burlington 16%c; Androscoggin, 9-4, 16c; Androscoggin, 10-4, crossed St. Paul and ruled a fraction higher during the day. There was some erratic movements in Illinois Steel, which broke 3% and rallied 2 points. On the recovery it jumped once a point and again 11% on successive sales. No news was forthcoming regarding the property. The local gas stocks also showed some very erratic variations on conflicting reports from Albany. but closed with a net gain of 2 for Consolidated Gas and 11/2 for Brooklyn Union. Tobacco was weak carly in the day on reports of opposition projects, but closed with an improvement of 1/2. Leather pre-ferred was exceptionally weak, and ended with a loss of 11/4 in spite of occasional weak rallies. Sugar gained 1% on published reports of steps being taken to secure control of the beet-sugar output. Chicago Gas, after numerous fluctuations, closed

closed at 310 bid and 320 asked. The bond market ruled firm and higher, with a lack eature in the prominent eature in the prominent Among the inactive liens some noteworthy variations occurred, including Lehigh & Wilkesbarre consols, which rose 5 per cent. to 96. Hocking Valley fell 21/2 per cent. Trading was less active, but a more general variety of issues were dealt in. The aggregate sales were \$334,000. Government bonds gained slightly on purchases of \$31,000.

Opening sales of May were made at 74%c and 75c, against yesterday's closing price of 73%c. It sold at 74%c for a few minutes under liberal realizing and then an advance started which did not stop until 76%c had been recorded. The advance at Liverpool did not stop at the 1%d first advised, but added from 1d to 14d, makalso reported a good demand for spot wheat at Liverpool. The Northwest complained of late seeding. Crop damage reports came from Ohio, Missouri, Illinois and Indiana and with such doleful prospects for the next crop the firmness of the market in view of the absence of alarm about war is easily explained. Chicago received nine carloads of wheat. Minneapolis and Duluth reported receipts of 208 cars, against 293 a week ago and 368 on the corresponding day of last year. Rye strong as it is, could not stand up against the attack made on the market in the last half hour of the session. The people who surreptitiously wheat on every swell, hav-the crowd filled up and their holdings disposed of, turned around and slugged the market until it was helplessly weak and it tumbled like a ball down a flight of stairs, gaining momentum as it descended. After touching 76% May reacted to 741/2c and back to 751/4c. Above half an hour from the close the sluggers got

in their deadliest work and by closing time the price was down to 73%c. Corn started slow, but the strength in wheat, small receipts and unfavorable weather soon started good buying with an accompanying advance in prices. Considerable long corn was offered at the advance and when wheat declined corn also became very weak. Exports were 377,000 bushels. Reaction in New York NEW YORK, April 21.-There was a general subsidence of speculative activity in wheat to-day and no excitement to speak of except at the opening and close. The unexpected advance of 3d in early Liverpool cables started the market on a rampage, prices jumping up 2c above last 64.071/20; Almonds, paper-shelled, 12@13c; softnight, but this soon gave way to quieter conditions and a reaction under long selling. At midday the market ruled steady and without feature. At the wind-up there was a short period of great excitement attending a break from 80%c to 80%c for May. The board had been quick to perceive the wavering undertone of the market and raided it in the last ten minutes, bringing out large quantities of shaky long wheat. The close was nervous at 80/2c asked for May. A notable feature today was the pressure in the late months. which closed %6 %c net lower than last night, against an advance of 1/46%c in the near positions. At the highest point
